

WORLD ENVIRONMENT DAY'16 CELEBRATIONS AT THE PARK NEW DELHI

The Hotel's theme for this year's Environment Week was '**Zero Tolerance towards Illegal Wildlife Trade**'. It is our responsibility to protect our precious Earth that is being robbed of its natural heritage pushing whole species to extinction. To put an end to this, a five day compact campaign was beautifully curated to send out this message.

June 1 – Wednesday

Street Play "Jungle Book 2016" was a fantastic portrayal of wildlife conservation, written and directed by team members.

Saplings were distributed to public and our guests who really appreciated this gesture that marked a global cause.

June 2 – Thursday

Screening of documentaries related to environmental issues were screened for our team members in the cafeteria.

These had strong messages in hindi and english making it very effective.

June 3 – Friday

A visit to Aaradhana home for senior citizens was a great way to share love and plant saplings together. It was an afternoon of entertainment followed by lunch.

June 4 – Saturday

A visit to Jeevashram Rajokri - A community for animals and pets . Kindness and to prevent cruelty towards animals was the prime focus of this trip. Compassion and love towards our animals was the highlight of this day.

June 5 – Sunday

March with the team on Parliament Street brought the whole group together showing unity and solidarity in making this a successful five day event to make a difference in this large movement.

To create a Green Environment awareness the entire back areas were displayed with posters on themes of Environment. Preservation and Conservation. The hotel came alive to drive zero tolerance and support this cause.
