# OBJECTIVE

The objective of arranging a hand hygiene session at Vivanta Aurangabad was to promote awareness and education around the importance of hand hygiene, especially in the context of the ongoing infectious disease. The session was conducted by John Diversey, a representative who specializes in hand hygiene practices and cleaning products. The presentation covered a range of topics related to hand hygiene, including the correct handwashing technique, the use of hand sanitizers, and the importance of using high-quality hygiene products and when to hand wash. The session also highlighted the specific challenges posed by COVID-19 and the steps that individuals can take to protect themselves and others from the virus. The objective of the presentation was to educate and empower the hotel staff, with the knowledge and tools they need to maintain proper hand hygiene. By doing so, the hotel can help to prevent the spread of illness and create a safer and healthier environment for everyone. Overall, the hand hygiene session was an important step in promoting awareness and education around hand hygiene practices. By working with an expert like John Diversey and providing staff with the knowledge they need to maintain proper hygiene, Vivanta Aurangabad can continue to prioritize the health and safety of its guests and employees.

# HOW TO WASH YOUR HANDS !

## How to Wash Your Hands

<b>1</b> 	Wet hands with water.	<b>2</b> 	Apply enough soap to cover all hand surfaces.	<b>3</b> 	Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.	<b>4</b> 	Rub hands palm to palm.
<b>5</b> 	Right palm over left dorsum with interlaced fingers and vice versa.	<b>6</b> 	Palm to palm with fingers interlaced.	<b>7</b> 	Backs of fingers to opposing palms with fingers interlocked.	<b>8</b> 	Rotational rubbing of left thumb clasped in right palm and vice versa.
<b>9</b> 	Rinse hands with water.	<b>10</b> 	Dry hands thoroughly with a single use towel.	<b>11</b> 	Your hands are now safe.	<b>12</b> 	Use towel to turn off faucet.
