

The Taj Mahal Hotel, New Delhi

Celebrates

World Environment Day

Celebrations 2017

- One of the most distinguished addresses in the Capital, ***The Taj Mahal Hotel, New Delhi*** is committed to **environmental sustainability through efficient resource management.**
- The Hotel has received a **Gold Level Certification** from **Earth Check**, *the leading benchmarking, certification and environmental management program used by the travel and tourism industry.*
- **Celebrating World Environment Day 2017**, the Hotel undertook various initiatives to increase awareness about environmental sustainability and encourage patrons, associates, guests and the larger community to achieve best practices in environmental and social sustainability.

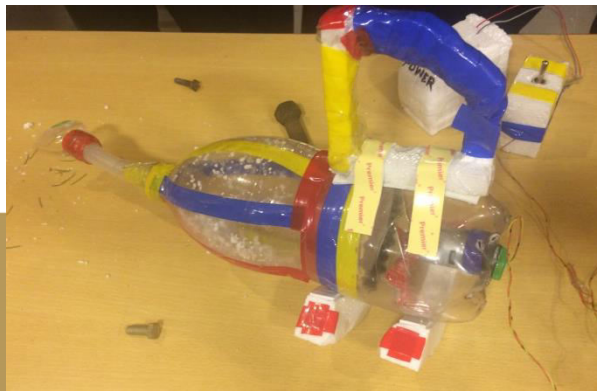

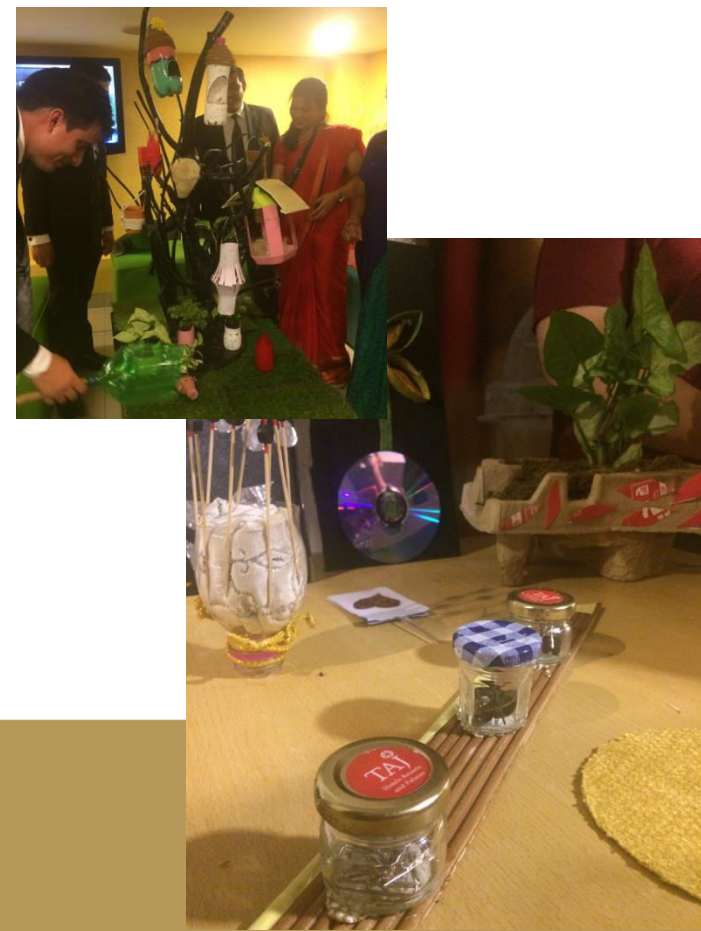

Plantation Drive

- As part of its annual practice, a **special plantation drive** was conducted on the terrace garden which saw the **participation of guests and associates alike.**

'Best of Waste'

- The Human Resources team at the Hotel, organized the '**Best Out of Waste Activity**', which saw the coming together of various departments to create models and articles from waste generated at the Hotel.
- The activity led to artistic creations such as a movie play box, a projector, vacuum cleaner amongst many others by enthusiastic teams.

- The Hotel is committed to achieving environmental leadership through its constant environment friendly endeavors:
 - LED lights and light dimmers in guest floor corridors and in the lobby
 - Water level sensors have been installed in the hotel to avoid wastage of water due to overflowing
 - A rain water harvesting program has been initiated by the Hotel
 - Solar panels are used for pre-heating of water
 - Discarded linen is converted into laundry bags, dusters, trolley covers and even menu covers
 - Big fresh air fans (30 HP) have been replaced with 3 AHUs for the laundry
 - Burnt oil from the kitchens is sold to an authorized agency to ensure proper disposal
 - All leather 'TAJ' carry bags have been replaced by jute bags
 - Regular energy audits are conducted by the Hotel to understand our performance on various environmental parameters
 - Associates regularly conduct sapling plantation drives in an effort to increase awareness about the importance of environmental sustainability
